Can you make a coxcomb?

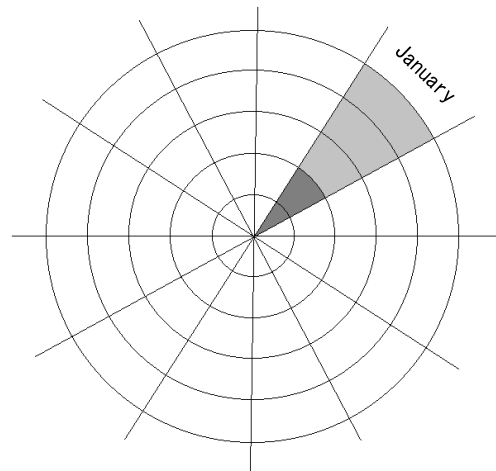

Each circle is worth 1, so you colour part of the middle circle for 1, the next ring for 2 etc.

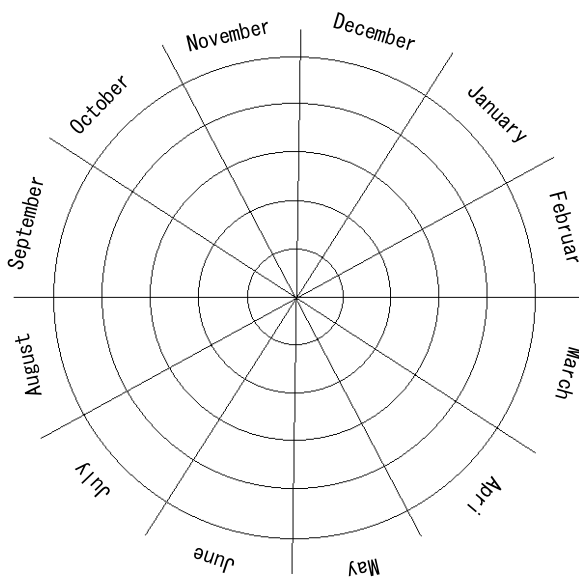

Both start from the middle so there will be some overlap.

So this example shows:

	Wounds	Disease
January	2	5

Fill out your own coxcomb:

	Wounds	Disease
January	2	5
February	1	4
March	1	3
April	1	2
May	0	2
June	1	2
July	0	3
August	2	4
September	3	4
October	2	3
November	3	5
December	3	5
